

2016/17 KNOWLEDGE SHARING PROGRAM (KSP) WITH BULGARIA

Final Reporting Workshop

March 9 (Thu) 2017, Sofia Tech Park

The Republic of Korea

The Republic of Bulgaria

INVITATION

**It is an honor to invite you to the Final Reporting Workshop of
the 2016/17 Knowledge Sharing Program (KSP) with the Republic of Bulgaria
to be held at the Sofia Tech Park on March 9, 2017.**

The Knowledge Sharing Program is a knowledge-intensive development and economic cooperation program designed to share Korea's development experience with partner countries. It offers comprehensive policy consultations tailored to the needs of partner countries encompassing in-depth analysis, policy consultation, and training opportunities. Since its launch in 2004, KSP has grown in size and complexity, and has become a main channel for Korea's knowledge sharing activities.

The purpose of this workshop is to share and discuss the major outcomes and policy implications of the 2016/17 KSP with Bulgaria. Moreover, this workshop not only aims to expand the partnership base in regards to economic cooperation by inviting high-level policy makers and experts from Korea and Bulgaria but also to provide a great opportunity to explore avenues of fostering national competitiveness in the field of research and innovation, capital market, and small and medium enterprises (SMEs).

We earnestly hope that the Workshop will serve as a dynamic platform to present your experience, share lessons learned, hear about practical solutions, and develop useful knowledge partnerships with peers from Bulgaria that face similar challenges. It will be a privilege to have you in this timely conference and we appreciate your invaluable experience. For detailed program information, please refer to the schedule for the workshop attached below.

Kyoungdoug KWON

Director of Division of Policy Consultation & Evaluation
Center for International Development
Korea Development Institute (KDI)
